picklebill.github.io/Brick

Two decades turning frontier technology into revenue. Now all-in on AI-native go-to-market.

- **Forward-deployed GTM operator** who designs first-of-a-kind partnerships and closes deals with the world's biggest tech companies: Google, Stripe, Meta, Microsoft.
- **Zero-to-one builder** of tech products that scale, and the AI-native workflows that build them. Three startups founded; one scaled to **\$35M+** at four years of EBITDA profit.
- **Cross-functional leader** who recruits and leads top-tier talent with no budget and no brand to sell them on, across globally distributed teams.

01 SELECTED SALES & PARTNERSHIP PROOF

PARTNERS Google / Stripe / PayPal / Meta / Microsoft / Payoneer / Adobe

- **Closed Google as a partner in year one.** As an early-stage startup, won VP-level sign-off across 5–6 internal Google teams (trust & safety, business integrity, commercial) on a first-of-its-kind Google Vision trust-layer integration that drove **\$45M+** in partner ad spend over 5+ years.
- **Turned one win into a repeatable motion.** Parlayed Google into Stripe, PayPal, Payoneer, Meta, and a Microsoft / Bing–ChatGPT partnership; closing tier-1 platforms became systematic, not a one-off.
- **Scaled Dreamship 11x in 2020.** Grew \$1.6M to \$17M on the way to **\$35M+** revenue, ~\$85M GMV, and 2.3M+ units; EBITDA-profitable four years running.
- **Reframed Courtana into an AI sports-intelligence platform.** Turned overlooked venue video into structured brand and player data, built on a multi-model pipeline (Gemini and Claude) and now live in four venues.
- **Sold AI before it was a category.** Closed seven-figure IBM Watson AI and enterprise analytics deals (Zillow, Avalara, an 8-figure McKesson win); selected for the IBM Summit Sales Program.
- **Built the book from scratch at Northwestern Mutual.** Recruited and led the team to a top-10 national ranking and **\$6M+** in total contract value across 150+ accounts.

02 EXPERIENCE

Dreamship [↗] • Cofounder & CEO (to 2023), then Board Chair

2018 – Present • SF Bay Area

API-driven on-demand fulfillment platform for ecommerce, creators, gifting, rewards, and enterprise.

- Bay Area bootstrapped, then raised \$2.2M (500 Startups) to build an early leader in ethical eCommerce.
- Scaled from launch to **\$35M+** revenue, ~\$85M GMV, and 2.3M+ units; 323% CAGR (2019–2021), 11x in 2020, EBITDA-profitable four years running.
- Built three lines of business across high-volume digital marketers, corporate gifting and swag (integrating Snappy, Goody, and Gifted), and nonprofit fundraising; turned the Google partnership into a tier-1 flywheel (Stripe, PayPal, Payoneer, Meta, Microsoft).
- Recruited and led a globally distributed team of 24 at peak (operations hub in Vietnam) across 21 fulfillment sites in 6 countries. Authored “How We Win” and stepped to Board Chair in 2023; Dreamship remains profitable.

Courtana · Founder & CEO

2023 – Present · Raleigh, NC

- AI sports-intelligence platform that turns the video exhaust of physical venues into structured brand and player data. Pickleball is the wedge; the data is the business.
- Architected a multi-model AI pipeline (Gemini for vision, Claude for strategy) with a 2-person team; 4,000+ clips analyzed into 7,000+ brand detections at about \$0.005 each.
 - Commercialized live across 4 venues, 36 courts, and 760 users; ran the pilot pipeline (Peak Pickleball, Pickleball Kingdom) and raised \$350K.
 - Run the company on an AI-native workflow (research, synthesis, build, ship), the operating model I would bring to a GTM org.

GearLaunch · VP Sales & Marketing

2017 – 2018 · SF Bay Area

- Led seller acquisition, growth, and partner positioning for a 360° ecommerce / print-on-demand platform; recruited and led a globally distributed team of 13.

IntroStellar · CEO / Cofounder

2015 – 2017 · SF Bay Area

- Led a distributed team across Ukraine and Nigeria; built three product versions on \$150K of lean funding.

WibiData · Director of Sales

2014 – 2015 · SF Bay Area

- Designed the Fortune 500 sales strategy for an open-source big-data platform (NEA, Canaan, Mike Olson, Eric Schmidt-backed); ran technical pilots with Macy's and Nordstrom.

IBM / Netezza · Watson Analytics & Netezza Brand Specialist

2012 – 2014 · SF Bay Area

- Structured seven-figure analytics and IBM Watson AI deals through consultative, technical-buyer selling; achieved quota and contributed to an 8-figure McKesson win.

Northwestern Mutual · College Unit Director / Financial Advisor

2006 – 2010 · Princeton, NJ

- Recruited, trained, and led the team; built a book from scratch to a top-10 national ranking, \$6M+ TCV across 150+ accounts.

03 EDUCATION

MBA, Entrepreneurship, UNC Kenan-Flagler (GMAT 730) · **BS, Finance**, The College of New Jersey (Captain, Men's Rugby).

04 CAPABILITIES

Strategic partnerships · joint GTM & co-sell · channel & ecosystem build from zero · partner economics & deal structuring · relationship-based enterprise & founder-led sales · own-the-number / forecasting · technical & product fluency · AI-native operator (Claude, Codex, Lovable, Gemini)

05 OPERATING SYSTEM

HOW I CLOSE	WHAT I BUILD	WHO I LEAD
First-of-a-kind partnerships with the biggest names in tech: Google, Stripe, Meta, Microsoft. \$45M+ partner ad spend; seven- and eight-figure enterprise deals.	Products that scale (Dreamship → \$35M+) and an AI force multiplier : intake, synthesis, proof, collateral, ship.	Top-tier talent recruited with no money and no brand. Globally distributed teams across SF, NYC, Vietnam, Southeast Asia, Ukraine, and Nigeria.

06 BEYOND

Pledge 1% (grew the network from ~1,200 to 2,100+ orgs) · **Freedom United** (non-profit board, 2020–22) · **VibeCo, GroupOrDare** (party card game), and **DJ Billygoat**: personal AI, product, and creative projects.
