Commercial operator who turns complex technology into partnerships, customer adoption and revenue. Experience spans enterprise sales at IBM and WibiData, building Dreamship to **\$26M peak revenue**. AI-native operator who uses tech as a force multiplier across research, demos, collateral, and product feedback, and recruits high-leverage teams with no money & no brand. Brings founder-level judgment to hands-on sales & partnership work.

01 · SELECTED SALES & PARTNERSHIP PROOF

- **Google:** Established a partnership in Dreamship's first year, aligning five internal teams around qualified merchants in an underserved market. The resulting channel supported **\$45M+ in merchant ad spend** over more than five years.
- **Stripe:** Shaped a partnership that gave merchants U.S. payments access, opened new business for Stripe, and supported joint events and Dreamship's brand growth.
- **Enterprise sales:** Sold seven-figure analytics solutions at IBM and contributed to an eight-figure McKesson win; sold technical pilots involving Macy's and Nordstrom at WibiData.

02 · EXPERIENCE

Dreamship · Cofounder & CEO; Board Chair

CEO: 2018–2024 · Board Chair: 2024–2026 · SF Bay Area

On-demand fulfillment platform serving international ecommerce merchants & corporate gifting platforms

- Cofounded and led the business to **\$26M peak revenue**, including **11x growth in 2020** (\$1.6M → \$17M), building commercial partnerships and the operating capabilities to support growth.
- Developed the Google partnership by addressing merchant qualification and intellectual-property risk, connecting an underserved Vietnamese merchant market with a major technology platform.
- Shaped partner strategy, positioning and joint events, with substantial involvement in Stripe and PayPal and an evolving relationship with Payoneer; delegated execution while remaining involved in important commercial decisions.
- Built and led a 24-person distributed organization with a SF executive team & a hub in Vietnam. Developed the "How We Win" operating framework and a fulfillment network spanning 21 locations in 6 countries.
- Built three product versions on ~\$150K of early funding with distributed contributors in Ukraine and Nigeria.

Courtana · Founder & CEO

2024–2026 · Raleigh, NC

Sports-intelligence platform using venue video to create player and brand data.

- Built and commercialized an AI smart-court ecosystem across 4 venues, 36 courts, and 760 users, defining a new product category: "TopGolf meets Pickleball."
- Founded the company and led product direction leveraging an AI-native operating stack (Claude, Codex, Lovable, Gemini) that transformed venue discovery into tailored interactive demos & helped launch AI coaching and a real-time gamified on-court experience.
- Personally built an AI video-analysis workflow that processed more than **21,000 clips**, including 4,097 fully analyzed with Gemini to monetize the "dark data of sports"; one of 40+ apps across 31 repos, built & shipped solo.
